SUMMARY

Full Stack Developer with 4+ years of experience building enterprise platforms in production, specializing in Angular on the front end and Laravel on the back end, with deep AWS experience. Built the internal CRM and operations platform Clark Outsourcing runs on, plus a separate payroll system with full Philippine statutory compliance. Currently integrating AI into company workflows through RAG pipelines with Pinecone and Elasticsearch.

WORK EXPERIENCE

CLARK OUTSOURCING

Pampanga, Philippines

Full Stack Developer

May 2022 – Present

- Built and maintain the internal CRM & operations platform – employee lifecycle, helpdesk ticketing, and the Airtable/Zoho automation layer that ties them together
- Built a separate payroll system with full Philippine statutory compliance (SSS, PhilHealth, Pag-IBIG), cutting processing time by 80% and manual work by 60%
- Architected AWS infrastructure across EC2, ECS, RDS, S3, SQS, Route 53, and Elastic Beanstalk, with CI/CD pipelines and a secured Git branching strategy
- Integrating AI into company processes – RAG pipelines with Pinecone and Elasticsearch for retrieval over internal knowledge

SOS GLOBAL (Australia)

Remote

Full Stack Developer (Part-time)

Nov 2025 – Feb 2026

- Delivered NeuroScreen, a developmental screening platform for Australian schools, within an agreed 3-month project timeline
- Built the platform with Angular on the front end and a Node.js/NestJS API backed by Prisma; role-based access with per-school data isolation
- Owned the AWS deployment pipeline in ap-southeast-2 (Sydney) – EC2, security groups, load balancers – to keep student data resident in Australia

CLOUD STAFF

Pampanga, Philippines

Associate Software Engineer (OJT)

Jan 2022 – Apr 2022

- Acquired working proficiency in Git, Angular, Laravel, and Postman
- Contributed to an internal web ticketing system and participated in code reviews
